Chemical store stock record

One line for each product in the store. Update it whenever anything goes in or comes out.

Store location

Checked by

Date checked

Product name	Authorisation number	Container size litres or kg	Date received	Quantity in	Quantity used	Balance in store now	Last date for storage and use if approval has ended	Condition container, label, leaks

Past its last date, or empty containers piling up? We clear old chemicals and empty containers from your store, with the paperwork for your file. Call 01580 212 519 or visit weedmanagement.co.uk.

Keep a copy of this record somewhere other than the store, so it can be found quickly in an emergency. When a product's approval ends, the Health and Safety Executive allows a set grace period for storage and use; after that it must not be stored or used, and has to be disposed of as hazardous waste. Always read the label: the label takes precedence.
